

JOINT PRESS RELEASE

FOR IMMEDIATE RELEASE

5 August, 2009

IMSTRAT AND PCI GEOMATICS TEAM TO PROVIDE ENHANCED REMOTE SENSING AND GEOMATICA® TRAINING SOLUTIONS

Carleton Place, ON Canada –ImStrat Corporation and PCI Geomatics have signed a Teaming Agreement, whereby both parties will participate in jointly developing and providing combined remote sensing and PCI software training programs to PCI and ImStrat clients, both in Canada and around the world.

Both ImStrat Corporation and PCI Geomatics possess complementary capabilities and products, with PCI Geomatics being a world leading developer of geo-imaging software and systems, and ImStrat Corporation as a Geospatial Intelligence Analysis and Training Solutions provider.

Tom Last, President of ImStrat Corporation said, "I'm very pleased and excited to work with PCI Geomatics on developing and delivering these training solutions. PCI Geomatics is clearly a world class remote sensing software application. However, training within key applications is critical to its continued successful use. This is where ImStrat will assist by providing complimentary image analysis training solutions."

"PCI Geomatics is excited to be partnered with ImStrat and the quality geospatial intelligence training programs they offer," said Brad Schmidt, Vice-President – Sales and Marketing at PCI Geomatics. "This agreement provides a foundation to offer an enhanced training experience for both ImStrat and PCI users to obtain remote sensing and image analysis knowledge through innovative and comprehensive training programs."

About PCI Geomatics

PCI Geomatics is a world leading developer of hardware/software systems for geo-imaging solutions. Since 1982, we have specialized in remote sensing, digital photogrammetry, spatial analysis, cartographic production, automated production systems, image management and on demand mapping solutions. PCI Geomatics'

advanced hardware/software systems address a wide variety of industry applications including the environment, agriculture, security and intelligence, aerospace & defense, and satellite receiving stations. We have the expertise and know-how to turn images into useful information.

About ImStrat Corporation

ImStrat Corporation is a privately owned Canadian Geospatial Intelligence Analysis innovation solutions and training provider.

ImStrat's innovative solutions and training support programs expand the range of Geospatial Intelligence requirements. This includes, but not limited to, confidential analysis support for ISR operations, baseline intelligence product development for use in other geospatial database systems, to complete turn-key imagery intelligence analysis training support programs. ImStrat is the sole Canadian partner of DigitalGlobe Defense and Intelligence Business Unit of the United States for QuickBird, WorldView1 and WorldView2 satellite systems. ImStrat is also the sole Canadian partner of Overwatch Geospatial LLC of the United States.
