## Press Release

### For Immediate Release

**Carleton Place, Ontario 10 August, 2005** - ImStrat Corporation is pleased to announce the signing of Hitachi, Ltd as ImStrat's official new reseller for the Territory of Japan. ImStrat Corporation will be working closely with Hitachi Defense Systems Group to ensure their end clients receive the full range of Hitachi products and the training to go with it by ImStrat.

President of ImStrat, Tom Last said, "I am extremely pleased with having Hitachi, Ltd as ImStrat's new Japanese reseller. Hitachi's reputation in Japan and throughout the world is second to none. We are very excited with working with them. As a matter of fact, even though our relationship is still young, it has already paid off with new contract's being negotiated and signed with end clients".

For more information on ImStrat's services, training support programs and multi data sales support, visit [www.imstrat.on.ca](http://www.imstrat.on.ca) or call our toll free line at 1-877-269-5940.

### **About ImStrat Corporation**

ImStrat Corporation provides highly professional consultation in remote sensing mission planning, data implementation, management, imagery intelligence analysis, and data extraction for clients around the world. Our team is highly trained in the art and science of visual imagery analysis in order to produce end user products, using the complete spectrum of satellite and airborne sensor platforms. With today and tomorrows, high spatial resolution remote sensing systems, ImStrat Corporation can provide detailed data extraction for use in an information database; executive decision making process; or a Geographic Information Systems (GIS) application. ImStrat Corporation also provides in-depth imagery intelligence training programs for national and international clients.

### **About Hitachi, Ltd.**

Our mission is to identify the real needs of society and our customers and to set and achieve goals that surpass those needs. We develop and apply new technology without being bound by traditional thinking. We focus our efforts on the fields of communications and services. We are willing to venture into new business areas. As a good corporate citizen, our goal is the harmonious coexistence of environmental preservation and economic growth.
